Advanced Creative Design
& Video Editing Program
with AI

ABOUT DIGITAL GHURU

Digital Ghuru is a modern digital learning and creative skill development platform dedicated to empowering students, professionals, entrepreneurs, and creators with industry-relevant digital skills.

We specialize in practical, career-focused training programs designed to bridge the gap between creativity and industry demand. Our programs focus on real-world application, portfolio development, and hands-on execution to help learners become job-ready and business-ready.

At Digital Ghuru, we believe creative education should be accessible, practical, and outcome-driven. Our mission is to help individuals master creative tools, build strong personal brands, unlock freelance opportunities, and grow confidently in the digital world.

ABOUT THE PROGRAM

The Advanced Creative Design & Video Editing Program with AI is designed to help learners master visual design, branding, content creation, and professional video editing from beginner to advanced level.

This program equips learners with the practical skills needed to create high-quality digital designs, edit professional videos, build brand visuals, and produce engaging content for social media, business marketing, and personal branding.

By the end of this program, learners will be able to create stunning digital creatives, edit high-performing videos, build complete brand assets, and confidently work on client projects, freelance opportunities, or full-time creative roles.

After completing the course, you can confidently apply for roles such as:

- Graphic Designer
- Video Editor
- Motion Graphics Designer
- Social Media Designer
- Brand Visual Designer
- Content Creator
- Creative Executive
- Freelance Designer

WHY CHOOSE DIGITAL GHURU ?

Empower your creative future with practical learning, industry tools, expert mentorship, and portfolio-driven training designed to help you build real-world creative skills with confidence.

CREATIVE DESIGN & VIDEO EDITING MODULE

01

Live Interactive Classes

Learn directly from industry professionals through practical live sessions designed for real-world creative execution.

04

AI Tools & Industry Exposure

Learn how to use AI tools for design, content creation, automation, and faster creative workflows.

02

Industry Expert Trainers

Get trained by experienced designers, editors, and digital creatives with real client project exposure.

05

Placement Guidance & Career Support

Receive professional guidance for job roles, freelance opportunities, and portfolio presentation.

03

Hands-on Real-Time Projects

Work on practical design and editing assignments to build confidence and execution skills.

06

Beginner-Friendly Curriculum
